RICARDO MARTINEZ

JUNIOR FRONTEND DEVELOPER

SUMARY

Studying frontend web development for a year, great enthusiasm for knowledge in general, as well as improving my practices, I work my projects seriously and cleanly, without neglecting my pragmatic style, ease of learning, desire to experiment and be up-to-date with technology.

EDUCATION

Frontend Development Course
Academia X • June 2022 – February 2023

Learn to program with HTML, CSS, and Javascript in a theoretical and practical way. Build your first web page that will be your PORTFOLIO, prepare with our exams, and become a Frontend Developer.

ONE Oracle Next Education
Alura • March 2023 – Present

ONE is an education and employability program with the social objective of training people in technology and connecting them with the labor market through collaborating companies.
The course is 100% online and completely free, designed for those who did not have access to quality education and want to transform their social reality.
The program opens registrations 3 times a year.
Each class completes a 6-month journey, divided into 4 routes available on the platform.
In total, there are over 560 hours of content.

Computer Systems Engineer
TecNM • August 2023 – Present

Comprehensively train competitive professionals in science, technology and other areas of knowledge, committed to the economic, social, cultural development and sustainability of the country.
